IWBs in Numeracy for Years 3–6

Presenter – Louise Hedley

In this session:

This workshop will focus on making the most of your Interactive Whiteboard (IWB) in Numeracy. It will highlight how key IWB tools can be used to promote strategies for problem solving and thinking mathematically. A range of templates will be shown that can be modified to meet a range of year levels and learning foci. Resources, including multimedia, internet and PowerPoint will be explored and their pedagogical value discussed. Some suggestions for using the board during small groups learning activities or learning centres will be exemplified and explained.

In this session you will:

- Explore the range of tools available in IWB software and how they can be used to enhance Numeracy lessons
- Learn how to create templates that can be used throughout the Numeracy curriculum
- Discuss the pedagogical value of IWBs and related Numeracy activities
- Experience a range of resources that are readily available on the internet

About the presenter:

Louise Hedley – Louise is a passionate educator with a diverse range of educational experiences. She has a Masters of Education specialising in ICT and International Schooling. Louise undertook a professional learning fellowship, researching the use of interactive whiteboards in the UK. This led to the role of ICT coordinator, overseeing the installation of interactive whiteboards and development of comprehensive ICT programs. Louise is a trained teacher of the International Baccalaureate's Primary Years Program and has held the position of Numeracy Coordinator after becoming a certified Early Years Numeracy Coordinator. Louise now works as a full time professional learning presenter and has presented in both Australia and abroad.
