

# Paddling the River

I get in our canoe slowly.  
My sister watches me, then she does the same.  
We push off and start to paddle.  
What will we see on this long and winding river?

We paddle around a bend in the river.  
I tell my sister I see 2 beavers on the riverbank.  
She tells me to look again. She says she sees 3.  
I look again but still see 2.
